DIV. OF OIL, GAS & MINING

Dear Mr. Cox;

The sites that were approved last year for sampling did not show much promise for the Perlite qualities we are looking for.

We recently have prospected on the various claims and found 2 sites that look very good. One site is right next to an approved site (backside 1). The other is north of this site near some old prospects.

I have enclosed a copy of the approved mapped area and I have marked the new areas that we would like to bulk sample. We don't anticipate any road work and both areas have gentle slopes.

Would you please update and amend our file to include these new areas and advise me if you need any more information. We look forward to your acceptance of this amended plan and will stand by until we hear from you.

Thank You Very Much

A handwritten signature in cursive script that reads "Robert Wilson".

Robert Wilson

Enclosed - Map showing new areas.
